

Laboratory / Clean Room Products

For Room Pressurization, Fume Hood Monitoring and More

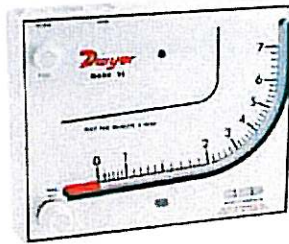

For over 60 years, Dwyer Instruments, Inc., has been producing a broad range of gages, measuring and control instruments for pressure, temperature, level and flow applications plus a complete valve product line. Many of the company's products are widely recognized by their brand names, such as: magnehelic®, Minihelic® and Capsuhelic®, pressure gages; Slack-Tube® and Flex-Tube®, manometers; Photohelic®, switch/gages; Rate-Master®, Mini-Master® and Visi-Float® flowmeters; and Dwyer® pressure switches.

INSTRUMENTS INC.

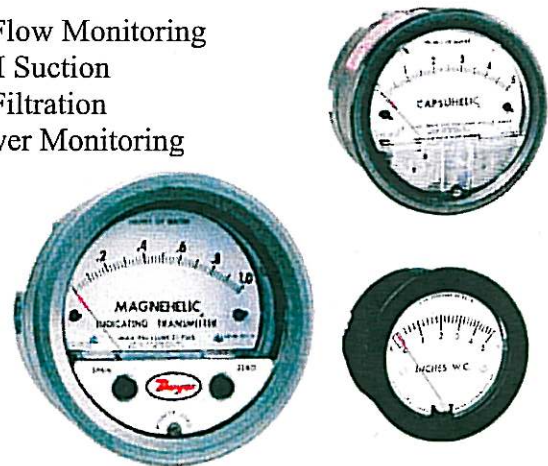

**Series 2000 Megnehelic® and Series 4000 Capsuhelic®
Series 5000 Minihelic® Differential Pressure Gages
Air Quantification, including:**

- Air Flow Monitoring
- CFM Suction
- Air Filtration
- Blower Monitoring

**Molded Plastic Air Velocity Meters
Low in Cost – Direct Reading Scales Offer 3%
Accuracy –**

For Portable or Stationary Applications
A molded plastic swing-out stand and leveling
screw for user installation are provided with
Models 40-1-AV and 41-2-AV

**Series 472 Kits
Digital Thermocouple
Thermometer Kit
Accepts Type J or K Thermocouples**

 **FILTER**
